My dear friends,

Welcome to the new academic year 2025-2026! It is an important milestone, 10th year of the College. This year, God has blessed us with two great people, Fr. Maria Arokiaraj sdb, as the principal and Fr. Francis Anbu sdb as the vice principal and professor of Computer Application. We also have 10 new staff, qualified, experienced and passionate about teaching ministry. Hearty welcome to all of them and to you all my dear first-year students. May this year bring new opportunities, challenges, and experiences that shape you into a better version of yourself. Embrace learning, grow, and thrive!

It is New year, new beginnings! Set your goals, work hard, and believe in yourself. This academic year is a chance to start fresh, make new connections, and achieve your dreams.

“Education” and “educational action” are two related terms. For many people, they are probably even synonymous, but they are not. We consider it a serious mistake to confuse them and to restrict education to teaching institutions. In this way “colleges” would end up shouldering all the burdens and responsibility for the dis-education of the people and communities they have served for centuries.

Instead, it seems to us that the expression “educational action” – used in place of “education” – may better encompass the multiple practices to which we wish to carry forward in our institution. Not being a great pedagogical theorist or not working in an educational institution does not prevent anyone from being an excellent educator in the context of a wide variety of relationships such as, are found in sports, recreation, religious practice, political, economic and cultural activity, family life, business activity and so on. Let us focus on our educational action.

June is rich with significant national and international observances; celebrating diverse themes from environmental awareness to cultural heritage. My dear staff and students, as we embark on a new year, I invite you to focus on the events mentioned below that highlight global unity, cultural appreciation, and social responsibility, encouraging collective reflection and action on pressing issues and joyous festivities, underscoring the month’s unique importance across the world.

• **1 June - Global Day of Parents:** The Global Day of Parents is celebrated on the 1st of June every

year. The UN General Assembly proclaimed this day in 2012 by passing a resolution that honours parents for their relentless support, sacrifice and commitment toward their children.

• **5 June - World Environment**

Day: World Environment Day is observed every year on 5th

June and is celebrated by more than 100 countries. The environment is a major issue, which not only affects the well-being of the people but also hampers economic development throughout the world. The theme of World Environment Day 2021 is “Ecosystem Restoration”.

• **20 June - World Refugee Day (International):**

This day is observed annually on 20th June to raise awareness about the struggles that refugees face around the world. World Refugee Day also marks a key moment for the public to show support for families forced to flee.

26 June - International Day against Drug Abuse and Illicit Trafficking:

This day was observed on 26th June every year to make people aware of the harmful effects of drugs and to determine a society free of drug abuse. It was established by the United Nations General Assembly to strengthen global action and cooperation.

27 June - Helen Keller Day: Helen Keller Day is important as it celebrates resilience, raises awareness about disabilities, inspires others, advocates for education, and promotes human rights and social justice, honouring Helen Keller’s remarkable achievements and encouraging a more inclusive society.

May these special days inspire every one of us to live these values as we start the new academic year as we focus on education for formation and transformation.

May the spirit of Don Bosco guide and inspire you, throughout this academic year. May you find joy in learning, growth in knowledge, and fulfillment in your pursuits.

God bless you all!

Yours affectionately in Don Bosco,

Rev. Dr. Jayapalan, SDB

Rector and Secretary.

Dear friends,

Happy to meet you all through this monthly newsletter of the College!

Every year on June 21st, the world comes together to celebrate *International Yoga Day* - a day dedicated to the ancient Indian practice that brings together the body, mind, and spirit. The United Nations recognised it in 2014. It is one of India's shining examples of rich cultural heritage and a precious gift to global well-being.

Yoga is more than just a physical exercise. It is a way of life that stimulates balance, mindfulness, and inner peace. In today's fast-paced world, it is very much needed for everyone; especially, for students. Yoga offers a much-needed break; an opportunity to reconnect with oneself, reduce stress, and enhance focus and discipline.

This year's theme, "*Yoga for Self and Society*", encourages each of us to explore yoga not only as a personal wellness tool but also as a means to promote harmony in our communities. For example, a few minutes of *pranayama* (breath controlling exercise) before class or a group session with friends can increase our concentration and alertness. Thus, incorporating yoga into daily life can have profound benefits.

As students, practicing yoga can support better health, improved concentration, and emotional balance, which are essential qualities for academic and personal success. As we are going to celebrate International Yoga Day, let us unroll our yoga mats, breathe deeply, and celebrate the age old wisdom of our forefathers.

Let yoga be not just an activity but a journey; toward self-awareness, compassion, and overall well-being.

Dear friends, as I assume the office of the Principal of the college, I thank Dr. Xavier Rajarathinam, my predecessor, for his welcome and detailed briefing of the roles and functions. I invite you all, dear staff and students, to join hands to strengthen the efforts taken by the institute to grow from strength to strength with the blessings of the Almighty. May all our efforts result in the greater good of the student community.

I cordially, invite you back to the college campus with a renewed vigour, refreshed after your summer holidays with your loved ones!

Happy International Yoga Day!

Rev. Dr. K. A. Maria Arokia Raj, SDB

Principal

Dear Students, Faculty, and Friends,

As I step into Don Bosco Arts and Science College as both Vice Principal and a new faculty member, I feel deeply grateful to be part of this vibrant and value-driven academic family. I greet you all with hope and enthusiasm as we begin this new academic year together.

In this first message, I want to leave you with one powerful word: **“WHY?”**

It is a simple question, yet it holds the key to meaningful living and purposeful learning.

Every time we act, study, speak, or even dream, let us pause and ask ourselves: **“Why am I doing this?”** The moment we begin to ask “Why?”, we begin to uncover **CLARITY**.

Jesus said, *“Let your eye be clear, so your whole body will be full of light.”* (Mt.6:22) Clarity of vision leads to clarity of life. St. John Bosco believed deeply in intentional living: *“Do the ordinary things extraordinarily well.”* But to do that, we must know why we do them, and for whom. Swami Vivekananda reminds us: *“Take up one idea. Make that one idea your life – think of it, dream of it, live on that idea.”* But we must ask: *Why this idea? Why this dream?*

When we ask “Why?” consistently:

- Our actions gain **direction**.
- Our studies gain **depth**.
- Our life gains **focus**.

Clarity is not a luxury; it is a **necessity**. Clarity in **values**, clarity in **choices**, clarity in **ambitions**. Without clarity, we may work hard but walk in circles.

With clarity, even a few steps can take us far.

Let this academic year be a **journey of Questioning and Understanding**. Let’s replace confusion with curiosity, and blind effort with purposeful energy.

May each of us find the courage to ask honest questions and the grace to live with clear purpose.

Wishing you all a year filled with insight, growth, and clarity.

Yours in Don Bosco,

Rev. Fr. Anbu Francis, SDB

*Dear Fathers
&
Brothers...*

In this age of artificial minds that learn and grow,
Where data flows like rivers, swift and wide,
Technology may change the how, but not the why we buy.
For in this age of artificial minds,
For commerce at its core joins hand to hand, and light to light.
In the marketplace of ones and zeros,
Remember still the human heart's warm glow,
Where algorithms whisper what we might desire,
Remember the human heart behind each transaction,
The most valuable currency remains our connection.

Akash B C David's "*Chapters Written in Silence*" is told through 31 poignant poems. Within these poems, themes such as a mother's love, the journey of a love relationship, and betrayals by others are explored. The book also depicts how an introvert comes out of these betrayals. This is an author's personal experience, which is profoundly reflected in his poems. The book offers a voice to those who feel deeply but speak little. It shows how solitude can be transformed into strength, proving that profound truths are often held in silence. Solace is provided to sensitive souls, reminding them that they are not alone. These experiences will resonate with all readers who engage with the book.
